## Local News.

## · ALBANY.

Russell Hitchcock has sold his farm to erod Pierce, for eleven hundred dollars. The auction on the Russell Jenne este was a success. Cows sold at from 25 to \$50; sheep at from \$4.50 to \$7 er head.

Mr. Orrin Delano has sold his farm, nown as the Loren Dewey farm, to lessrs. Eugene and Willard Rowell for 000. We guess the boys mean busiess, and they shall each of them have wife when they get married.

Deacon Medad Darling has entered upon his eighteenth year as school disrict treasurer, in district No. 15. He has fathfully and creditably discharged the duties of this office ever since the organization of the district.

REPORT OF SUPERINTENDENT Schools in Albany .- Fellow Citizens, When I commenced my work as Superintendent, I was comparatively a stranger among you. I knew but little of the condition of the different schools, and nothing of their past history; nor was I acquainted with many of the teachers belonging in town and teaching here; hence, I am wholly unable to compare the schools of this year with those of preceding years; yet I 'flatter myself that they are in no respect inferior to hem. This makes it a pleasant duty for me as Superintendent of schools to make reports on this branch of our pubic interests. I would not however convey the idea that our schools have all been in the highest degree satisfactory, but that they have been as a whole very

In the fifteen different districts own, there has been taught thirty-three erms of school the past year; fifteen in the summer, four in the fall, and fourteen in the winter. To teach these schools twenty-five different teachers have been employed. Twenty of them were residents of this town; three have state certificates; twenty-seven terms were taught by home talent. Only five male teachers were employed. I have in no case been called upon or thought it necessary to revoke a certificate, and only one teacher failed to complete her school, and of her let me say she answered ninety per cent of the questions asked at the public examination of teachers last spring. It is worthy of notice that only four teachers have taught a second term in the same district, and only one school has been under the charge of the same teacher the whole number of terms taught in the year. This constant changing of teachers is very injurious to the interests of our schools; I hope for improvement in this respect. Let us when we have once secured a profitable teacher; when we get the right person n the right place, keep him there as ong as possible, no matter if we have to pay a few dollars extra. There should be searching for good teachers ; for teachers adapted to particular schools, and when found, the efforts of each in behalf of his school should be supported by the hearty cooperation of the whole district. In many of my visits, I have endeavored to impress upon the minds of the scholars their individual responsibility, if they would have a good school, and today would that I could arouse my fellow townsmen, to the important subject of doing more to make our schools profitable. Nearly all of our school houses are in good repair, but I am sorry to say almost wholly unfurnished. I have not seen a set of mathematical blocks in a school room in town. I know of no outline maps, or even a globe; there is in some districts a dictionary, in two or three a clock, in all something for a blackboard. It will be seen by this that our teachers go to their work poorly provided for. Let us hope for improvement here. The farmer does not send his hired help into the field to mow with dull scythes or reap with broken sickles. but he gives them the most perfect implements of husbandry, that they may accomplish much in a short time with but little outlay of strength.

The schools in this town cost yearly guests especially, feel that they can at least \$2500.00, and do we not want thank and say with good grace, vive la driving piles for the new railroad bridge, this investment to bring us as large an | Mignonette. income as possible? Then let us put our teachers in the most favorable position to teach. Let us surround them with the little apparatus they need to instruct the children in the common school branches. Is it asking too much while our farmers are getting mowing machines, horse rakes, and patent milk pans as labor and money savers, to allow the same age of improvement that furnishes us with these many useful inventions, furnish our teachers with some aids to teaching.

During the year I have made about forty-five visits; some of the schools in the summer I visited three times, most of them twice, and all at least once. The the morning of his death he received a winter schools I have visited all save three once, some of them twice. I hope way home. Probably over-exertion in that many of the teachers engaged in traveling so far through the snow on town this year, will continue their work foot was the cause of his death .- Union. here in time to come.

Respectfully submitted. D. M. PARKER, Supt. Albany March 5, 1872.

BARTON. There were shipped from the Landing last week 33 car loads of freight.

L. L. Buckland at the Landing has sold his harness shop building and barn to David Gillis.

At the annual school meeting at the Corev had a roost robbed Saturday night. Landing, the district voted to build a new school house with a public hall in the upper story.

Some folks who tapped their sugar | feathers. places last Thursday and Friday, went out this morning and found some of the buckets running over-with snow .-Almost an April fool.

The school meeting in the village district last Tuesday evening was adjourned two weeks in order to give the trustees of the Academy the privilege of selecting some one for committee, to be confirmed by the district at the next meeting, Dr. Skinner, their previous nominee, declining to serve.

ILLUSTRATED SIGNS .- Lewis R Wood, Jr., of this town, is doing a prosperous business in the way of sign painting .-We are glad of it, for he is steady, honest, upright and industrious, and is a genius, no mistake. He has lately painted a sign for F. P. Cheney, of St. Johnsbury, picturing out the Domestic Sewing Machine so perfectly that some, as they saw it at a little distance, as it passed through the streets, supposed it to be a genuine "machine." He also put up one last Saturday for E. E. Rawson, illustrated with a "gold watch and chain." The letters are of the Old English style, and taking the whole thing together, it is a beauty and an ornament to the building. It also signifies that the jewelry business at Rawson's shop is growing better instead of being on the decline. Lewis' signs never fail to attract the at-

Pin, Tape, and other Worms, larking in the system of so many thousands, are effectually destroyed and removed. Says a distinguished physiologist: There is scarcely an individual upon the face of the earth whose body is exempt from the presence of worms. It is not upon the healthy elements of the body that worms exist, but upon the diseased humors and slimy deposits that breed these living monsters of disease, No system of Medicine, no vermifines, no anthelminities, will free the system from worms like these Bitters. Mechanical Diseases. Persons engaged in

Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, will be subject to paralysis of the Bowels. To guard against take a dose of WALKER'S VINEGAR BITTERS once or twice a week as a Preventive.

Billions, Remittent, and Intermittent
Fevers, which are so prevalent in the valleys of our
great rivers throughout the United States, especially great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Camberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. There are always more or less obstructions of the liver, a weakness and irritable state of the stomach, and great torpor of the bowels, being clogged up with vitiated accumulations. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to Dn. J. WALKER'S VINEGAR BITTURES, as they will speedily remove the dark colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goiter, Scrofulous Inflammations, Indolent Inflammations, Mercurial Af-fections, Old Sores, Eruptions of the Skin, Sore Eyes, etc., etc. In these, as in all other constitutional Dis-eases, WALKER'S VINEGAR BITTERS have shown their

great curative powers in the most obstinate and intractable cases. Dr. Walker's California Vinegar Bitters act on all these cases in a similar manner. By purifying the Blood they remove the cause, and by resolving away the effects of the inflammation (the tubercular deposits) the affected parts receive health, and a permanent cure

the affected.

The properties of Dr. Walker's Vinegar Bitters are Aperient. Diaphoretic and Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious.

The Aperient and mild Laxative properties of Dr. Walker's Vinegar Bitters are the best safeguard in all cases of eruptions and malignant fevers, their balsamic, healing, and soothing properties protect the humors of the fauces. Their Sedative properties allay pain in the nervous system, stomach, and bowels, either from inflammation, wind, colic, cramps, etc. Their Counter-Irritant influence extends throughout the system. Their Diuretic properties act on the Kidneys, correcting and regulating the flow of urine. Their Anti-Bilious properties stimulate the liver, in the secretion of bile, and its discharges through the biliary ducts, and are superior to all remedial agents, for the cure of Bilious Fever, Fever and Ague, etc.

Fortly the body against disease by purifying all its fluids with Vinegar Bitters. No epidemic can take hold of a system thus forearmed. The liver, the stomach, the bowels, the kidneys, and the nerves are rendered disease-proof by this great invigorant.

Directions .- Take of the Bitters on going to bed at night from a half to one and one half wine-glassfull. Eat good nourishing food, such as beef steak, mutton chop, venison, roast beef, and vegetables, and take out-door exercise. They are composed of purely veget-WALKER, Prop'r. R. H. McDONALD& Co.,

THE GREAT REMEDY FOR

CONSUMPTION and acknowledged by many prominent physicians to be the most Reliable Preparation ever introduced for the RELIEF and CURE of all

LUNG COMPLAINTS. This well-known remedy is offered to the public, sanctioned by the experience of over forty years, and when resorted to in season, seldom fails to effect a speedy cure of Coughs, Colds, Croup, Bronchitis, Influenza, Whooping Cough, Hoarse-

Chest and Side, Bleeding at the Lungs, Liver Complaint, &c. CONSUMPTION CAN BE CURED

ness, Pains or Soreness in the

by a timely resort to this standard remedy, as is proved by hundreds of testimonials received by the proprietors.

DR. WISTAR'S BALSAM OF WILD CHERRY does not dry up a Cough, and leave the cause behind, as is the case with most cause behind, as is the case with most preparations, but it loosens and cleanses the lungs, and allays irritation, thus removing the cause of the complaint. CLERGYMEN, LAWYERS, SINGERS, and all those whose occupation requires an unusual exercise of the vocal organs, will find

ually and instantaneously relieve their difficul-Beware of Counterfelts. Remember that the genuine Wistar's Balsam has on the outside wrapper the signature of "I. BUTTS," and the printed name of the proprietors, "SETH W. FOWLE & SONS, BOS-TON." All others are base imitations. Exam-ine the wrapper carefully before purchasing.

this the ONLY PREPARATION which will effect-

One Dollar a Bottle. Six Bottles for Pice Dollars. PREPARED BY SETH W. FOWLE & SONS, Boston, Mass., And sold by Druggists and Dealers generally.

R. R. R. RADWAY'S READY RELIEF if desired. Get your sewing work ready and give me an order. Glazed cotton (Holyoke) is good enough for In from One to Twenty Minutes. NOT ONE HOUR
